2.1

VISUAL COMFORT & Co.

MODERN COLLECTION

## GENERAL PRODUCT INFORMATION:

This product is ETL listed and suitable only for indoor dry locations and approved for use at any height above the finished floor.

## Adjust The Fixture Height

- 1** Back out (do not remove) the set screw on tip of the connector with the provided Allen wrench.

- 2** Back out (do not remove) the set screw on the conical connector with the provided Allen wrench.
- 3** Pull the coaxial cable out.

- 4** Cut the coaxial cable to the desired length.
- 5** Gently twist the end of the coaxial cable between thumb and forefinger.

- 6** Tap the conical connector on a hard surface with the set screw facing down, so the plate inside drops into place.

- 7** Feed and push the coaxial cable into the conical connector. The coaxial cable will come to a stop point after being inserted 3/4" into the conical connector.

- 8** Keep pushing the coaxial cable into the connector while rotating the connector to ease feeding the inner wire into the tip of the connector. The outer wrapped wire will start wrinkling while being inserted another 1/2" into the connector.

- 9** Look into the sight hole on the top of the connector to make sure that the inner wire is contacting the end of the connector.
- 10** Hold the coaxial cable in place and tighten the set screw on tip of the connector with the provided Allen wrench. **Make sure this set screw connection is tight.**

- 11** Firmly tighten the set screw on the conical connector.

- 12** Pull the coaxial cable toward the fixture to smooth the wrinkles.

## Installing the Outer Glass & Lamp

2A

- 1** Line up the outer glass holes with the inner glass studs and secure the outer glass to inner glass with provided thumb screws and nylon washers.

2B

**CAUTION:** To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture.

**NOTE:** lamp shield is for halogen lamping option only.

- 2** Lift the glass shade up to expose the socket.

2C

- 3** Remove the lamp shield and the old lamp.

2D

- 4** Handle the new replacement lamp with a soft cloth to prevent the natural oils on the fingertips from collecting on the lamp. This will help extend the life of the lamp.
- 5** Gently insert the new lamp into the socket. Refer to the label on the fixture for Max Wattage Information.

2E

- 6 Push the lamp shield onto the spring clip.
- 7 Gently lower the shades onto the socket assembly.

**SAVE THESE INSTRUCTIONS!**
